As capitalism continues with business as usual, climate change is fast expanding the gap between rich and poor between and within nations, and imposing unparalleled suffering on those least able to protect themselves. In THE GLOBAL FIGHT FOR CLIMATE JUSTICE, anticapitalist activists from five continents offer radical answers to the most important questions of our time: ** Why is capitalism destroying the conditions that make life on Earth possible? ** How can we stop the destruction before it is too late? In 46 essays on topics ranging from the food crisis to carbon trading to perspectives from indigenous peoples, they make a compelling case that saving the world from climate catastrophe will require much more than tinkering with technology or taxes. Only radical social change can prevent irreversible damage to the earth and civilization. Essential reading for everyone who is serious about confronting the climate emergency. -Emma Murphy, co-editor, Green Left Weekly EDITED BY IAN ANGUS Ian Angus, who wrote several of the articles in this book and selected the others from a wide range of authors and movements, is one of the world's best-known ecosocialist activists.
