Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Physical Chemistry and Its Applications in Medical and Biological Science The rapid development which has taken place in Physical Chemistry during the past two decades, and the success which has attended the application of physicochemical principles and methods to the study of problems in Medical and Biological Science, render it of essential importance for students and workers in these departments to become familiar with the chief facts and theories, as well as methods, of Physical Chemistry. Hober, Physikalische Chemie der Zelle und Gewebe; H. Koeppe, Physikalische Chemie in der Medizin; and especially from the standard work by H. J. Hamburger, Osmotischer Druck und Ionenlehre in den medizinischen Wissenschaften; and he desires also to acknowledge the courtesy of the Editor in permitting the lectures to be reprinted from the pages of The Birmingham Medical...
